Dear Parents

As part of our Design and Technology unit this half term, the children will be designing and constructing their own model ambulances using wheels and axles provided by the school. To support this exciting hands-on learning experience, we kindly ask that you provide your child with a **shoebox**, which will form the main body of the ambulance.

Please ensure the shoebox is brought to school as soon as possible. Your child's teacher will store it safely, so it is important to write your child's name clearly on the inside of the box to avoid any mix-ups.

Additionally, if you are able, we would appreciate it if you could cover both the lid and the box with plain paper before sending it in. This can be done using the reverse side of wrapping paper or simply using sheets of A4. This will allow the children to begin painting their ambulances in the appropriate colours right away, saving valuable class time during the construction phase.

Thank you for your support and assistance in making this project a fun and engaging learning experience!

Yours sincerely

Ian Gregory
